To Whom It May Concern:

I'm writing to provide a recommendation In the Case of Form Studios Inc. and ABP Development, LLC. The architects, Job Supervisor and team of contractors worked tirelessly to build our 8000sf Youth Worship Facility in Crowley, TX. I was thoroughly impressed by the diligence of the project supervisor and his constant availability. Unlike a traditional build, the architect of the building was also our build supervisor. This was a tremendous benefit as he was able to speak directly to the differing trades to coordinate schedules, block out any outages and provide insight for the routing of plumbing, electrical etc... Not only that, we as a church were able to have our needs met and changes could be made on the spot without waiting the typical time for the General Contractor to negotiate with the architect. When I say they handle it all, they handle it ALL!

This was my first endeavor with a build of this magnitude. I can tell you that Jon and the rest of the crew at FSI made it an incredible experience. During the planning phase, they were very cognizant of our budget and keeping the build cost below our bottom line. After we had agreed to the plans and budget, Form continued to work with contractors to bring their original build price down! Needless to say, they came in under budget and provided all of the documentation for payment in a clear, concise, easy to read format which allowed us to be informed of our exact costs.

We have long range plan developed for our church and I can assure you, as long as I am here, Form Studios and ABP will be at the top of our list for any and all design/build projects.

If you have any questions or concerns, don't hesitate to contact me.

Blessings,

Keith Warren  
Youth Minister
