

Kids Kampus Creative Learning Center

August 27, 2009

To Whom It May Concern,

As a former client of Form Studios, I would like to publically thank this company and Brad Berry for the wonderful job from start to finish. Form Studios designed our 10,000 square foot child care center and surrounding landscaped areas with precision and excellence. They really listened to what we wanted our center to look like and made this happen on paper and later with hard materials. Form Studios professionally communicated with all the required people to make our dream child care center come true. During this time we were not burdened with problems or complications as they were handled by Brad and his team. The communication from Form Studios kept us in the know but not overwhelmed. We did not know anyone from Form Studios before this process began. We were referred to them. After the initial meeting, their sincerity and acute listening skills assured us we were in good hands. This was proven true many, many times during the 11 months of planning and building of our child care center. Yes, I would recommend Form Studios for any type of architectural job. I'm positive their future clients will be as pleased as we are with their talents and service!

Sincerely,

Jennifer Martin
